UPLIFTING THE RURAL COMMUNITY IN INDIA WITH #GOODVISION

Free eye screening camp organized at Podadiha
Village in Khordha, Odisha

This vital program brings much-needed eye care directly to rural communities. Residents now have the opportunity to receive essential screenings, potentially leading to restored sight and a renewed outlook on life. This initiative signifies a crucial step towards building a healthier future for rural India, where access to healthcare often presents significant challenges.

LOVE YOUR EYES AT WORK

Because **Happy Eyes = Happy Work!**

Healthy and good eyesight is crucial at work! We at Care Netram took a commendable step towards improving eye health in Dhanbad by organizing a free eye check-up camp at Pantaloons. This initiative provided much needed access to eye care for the workers at Pantaloons. We thank Pantaloons for collaborating and inviting us to conduct eye screening camp.

SAYING 'NO' TO THE THIEF OF EYESIGHT - CATARACT

Preventing preventable blindness by sponsoring cataract surgery to those in need

Care Netram empowers rural communities by sponsoring free cataract surgeries for underprivileged individuals. This restores their sight, granting them independence and a renewed ability to live fulfilling lives.

SUPPORTING & EMPOWERING THE RURAL HOMEMAKERS

Because **#SheCares**, We Care

Rural homemakers are the backbone of their families, working tirelessly to ensure their well-being. At Care Netram, we understand that poor vision can significantly hinder their ability to fulfill these vital roles.

UPLIFTING RURAL BUSINESSWOMEN IN JAMSHEDPUR

Not letting poor vision disrupt 'HER' confidence & independence

Pulut Das, a visually impaired woman in Jamshedpur, earns her livelihood by selling snacks on the streetside. Despite her challenges, she excels in preparing delicious samosas, potato chops, bread chops, and pakodas for her customers. However, her poor eyesight posed a daily struggle. Thanks to Care Netram's timely support, she received vision-supporting glasses. With clear eyesight, she now manages her small business with ease, ensuring that her visual impairment no longer hinders her success.

AN EYE TO THE FUTURE

Promoting Quality Vision Care For Rural School Children

When visual impairment is severe, children may never enroll in school or drop out. We at Care Netram continue to ensure no children drop out or back out from schooling due to poor vision. Children are provided with free eye screening and spectacles to support their vision.

HONORING THE STELLAR TEAM AT CARE NETRAM
